Subject: Updated RSC Distribution: Tiering - January 2018 Tiering List due January 18

I inadvertently missed the OAR downtier request for SAN 5719.8. It's now on this version of tiering list.

The January 2018 Tiering List has been created. Responses are due by January 18. RSC Representatives may respond directly. For others, please forward your comments through your RSC Representative. You may reference the document in any e-mail by forwarding this email in MS Outlook.

Please follow the doclink->

January 2018 Tiering List

RSC Alternate: Joseph Morris OAR/OAA (202-564-2569)

OAR - SAN 5719.8: (Tier 1) Oil and Gas NSPS Reconsideration
Down Tier 1 to Tier 2

This NPRM is a reconsideration of NSPS OOOOa. The focus of this action is on technical issues related to implementation of the final OOOOa standards. These issues directly affect how facilities comply with the rule, and the proposed options and alternatives will provide streamlined requirements and reduced burden of compliance. EPA has identified and summarized some of these areas for improvement in the June 16, 2017, proposals to stay certain requirements in OOOOa and further solicited comment in the notices of data availability (NODAs) signed by the EPA Administrator on November 1, 2017. These technical issues are discreet and separate from broader policy issues within this rule, such as the regulation of methane, which will be covered in a separate rulemaking and tiered separately. Given the technical nature of this action, we are requesting a Tier 2 designation consistent with other technical reconsiderations of regulations. The following offices have agreed to this downtiering: OP, OGC, ORD, OECA, Region 6, and Region 8. The following offices had not agreed to this downtiering: Region 3 and Region 5. Tier 3 was originally proposed. Offices are okay with a Tier 2.

Requested by: Wanda Farrar - OAR/OAA/OPAR
